What's new in RipX DAW 9

🎯 **More accurate note detection:** A better starting point for every edit.

✨ **Cleaner note extraction:** Edits have far fewer artifacts.

🎶 **More natural-sounding pitch snapping:** For better vocals.

🎼 **Better barline and key detection:** Now also picking up the scale when it's clear.

🎛️ **Big effects upgrades:** Harmony (now with automatic variation), Vibrato (now with vibrato reduction), Reverb, Shimmer and Saturation, plus new **De-Esser** and **Distortion** effects.

🎹 **Higher-quality instrument sound replacement:** With better level balance.

🎙️ **Improved recording and metronome sync:** Including a new count-in that follows the actual beat in the bar.

💾 **Smaller Rips, on by default:** Files are 5–6x smaller with no loss in overall sound quality.

🖱️ **Improved, more intuitive editing.**

Already own RipX? RipX DAW 9 is a free update for existing RipX DAW and RipX DAW PRO owners. And if you own RipX DAW, you can upgrade to **RipX DAW PRO** at 30% off by selecting **Help > Upgrade RipX DAW** from the menu bar.
